

Dell UltraSharp
U2412M 24"
Monitor with
LED backlights

Experience outstanding screen clarity with the Dell UltraSharp™ U2412M 24" Monitor with LED backlights

Designed with your comfort in mind, the U2412M comes with full adjustability features like height adjustable stand, plus tilt, pivot and swivel functions to suit your needs, and not the other way around. And with its arsenic-free, mercury-free LED panel and power management features, the U2412M meets high environmental standards like TCO Certified Displays 5.2.

If you are looking for a monitor where uncompromising screen performance meets comfort and environmental consciousness, look no further — the U2412M delivers.

The Dell UltraSharp™ U2412M 24" monitor is perfect for:

- Tech enthusiasts
- Advanced office applications users
- Educators
- Programmers
- Financial analysts
- Healthcare professionals
- Students
- Casual gamers
- Home office users

Dell UltraSharp U2412M

24" Monitor with LED backlights

Uncompromising screen performance

- **Outstanding screen clarity**
 - Wide viewing angle¹ — see accurate and consistent colors across a wide viewing angle (178° x 178°)
 - Enjoy vivid, crystal clear images with resolution of 1920 x 1200
 - High dynamic contrast ratio of 2 million:1 and fast 8 ms gray-to-gray response time — experience crisp, razor-sharp and ghost-free images, thus reducing motion blur
- **Wide color gamut of 82% (typical)** — enjoy impressive color performance with the U2412M's ability to produce a wide range of colors
- **Large 24-inch screen with a 16:10 aspect ratio** — compatible with legacy software applications with screen sizes that fit perfectly on the 1920 x 1200 resolution U2412M monitor

Comfort and style

- **Improved height adjustability** (115 mm vs. previous Dell models with 100 mm) — maximize your viewing comfort by easily adjusting the monitor to the desired height
- **Additional comfort-enabling features such as tilt, swivel and pivot (with enhanced menu rotation)** — adjust the screen to the preferred angle (tilt — 4 degrees forward/ 21 degrees backward — plus swivel). Change the orientation of the screen from horizontal to vertical (pivot) to easily read newsletters, flyers, or web pages without the need to scroll using manual adjustment and an enhanced menu rotation
- **New slim profile** — conveys elegance and stylish sophistication

Eco-design

- **Environmental compliance** — meets the latest environmental standards such as TCO Certified Displays 5.2, and CECP
- **Arsenic-free and mercury-free LED panel, and BFR/PVC-free laminates in circuit boards** — easy to recycle and helps to lower power consumption
- **PowerNap² software** — helps to dim the monitor to its minimum brightness level or puts it into sleep mode when not in use
- **Dynamic dimming³ software** — adjusts onscreen brightness when images displayed consist of predominantly large bright and white areas

Additional features of the U2412M

- **Energy usage bar** — appears on the OSD menu and shows the monitor's energy consumption at a glance
- **Text mode** — when text mode is enabled the screen automatically adjusts its brightness to 150 nits, which is suitable for reading text
- **Color temperature slider**
 - Default color temperature is 6500k
 - Color temperature slider can easily be moved to desired cooler or warmer color temperature

Dell UltraSharp™
U2412M 24" Monitor

Designed for comfort,
convenience and ease-of-use

Dell recommends that customers dispose used computer hardware, including monitors, in an environmentally sound manner. Potential methods include reuse of parts or whole products and recycling of product, components and/or materials. For more information, please visit http://dell.com/recycling_programs and www.dell.com/environment

Dell UltraSharp U2412M 24" Monitor with LED backlights

Monitor

Viewable image size (diagonal)	60.96 cm (24 inches)
Preset display area: Horizontal Vertical	518.4 mm (20.3 inches) 324.0 mm (12.7 inches)
Maximum resolution	1920 x 1200 at 60 Hz
Pixel pitch	0.270 mm
Brightness (typical)	300 cd/m ²
Color gamut (typical)	82% ⁴
Color depth	16.7 million colors
Contrast ratio (typical) Dynamic contrast ratio (estimate)	1,000:1 2 million:1
Viewing angle (typical) (vertical/horizontal)	178°/178°
Response time (typical)	8ms (gray to gray)
