HP ZBook 17 Mobile Workstation

Inspire creativity with the incredible expandability of HP's most powerful mobile workstation.

HP ZBook 17 Mobile Workstation

HP recommends Windows.

Creativity knows no limits. Showcase your best work in the office or on the go. With the new HP ZBook 17 workstation, take advantage of HP's most powerful processing and graphics, consistent color throughout your workflow, simple scalability, and the blazing-fast connectivity your team needs to perform and collaborate at the speed of creativity.

Innovative, sleek design

Proudly display your work on a large, 17.3-inch diagonal screen housed in the durable chassis of the new HP ZBook 17. The new innovative design projects a professional image and remains easy enough to carry where work takes you.

Consolidate workstation resources and connect from any computer at any location with internet access. With HP Remote Graphics Software (RGS)¹ collaborate with colleagues or utilize the power of servers and workstations back at the office.

¹ HP Remote Graphics Software requires Windows and an internet connection.

Power to perform

With Thunderbolt™,² professional NVIDIA Quadro 3D Graphics, and optional Quad Core CPUs,^{4,5} the new HP ZBook 17 takes power to a new standard.

Empower your creativity. Count on dynamic, true workstation performance with the latest 4th generation Intel® Core™ i5 or i7 processors.⁵

Customize this HP ZBook 17 to meet your demands. Keep large files at your fingertips without sacrificing performance with up to 2.75 TB of storage⁹ and up to 32 GB of memory.³

Accelerate creative projects with up to 2X faster data transfer speeds than USB 3.0. Easily connect to multiple devices with just one cable. Thunderbolt™² technology makes it possible.

Get full power of graphics when you need them and longer battery life when using lighter graphic applications. It's automatic and seamless with hybrid graphics.

Confidence in colors

Maintain accurate, predictable colors that are consistent across your entire digital workflow.

What you see on your display is true to the finished product, thanks to the optional HP DreamColor display.⁴

Workstation reliability

During the HP Total Test Process, mobile workstations experience 115,000 hours of performance trials, and with ISV-certifications, the HP ZBook 17 is reliable and ready for business.

Optimize this HP ZBook 17 for peak performance. HP Performance Advisor⁶ configures your system with updated settings and drivers to help maximize performance.

No tools needed. Just unlatch the HP Easy Access Door to quickly service your hardware and upgrade parts.

² Thunderbolt is new technology. Install all the latest drivers for your Thunderbolt device before connecting the device to the Thunderbolt port. Thunderbolt cable and Thunderbolt device (sold separately) must be compatible with Windows. To determine whether your device is Thunderbolt Certified for Windows, thunderbolttechnology.net/products.

³ Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.

⁴ Sold as an optional or add on feature.

⁵ Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

⁶ HP Performance Advisor requires Windows and an internet connection.

⁹ For hard drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 16 GB (for Windows 7) of system and up to 30 GB (for Windows 8) disk is reserved for system recovery software.

HP ZBook 17 Mobile Workstation

1. Optional HD Webcam
2. 17.3 diagonal LED-backlit HD anti-glare display
3. USB 3.0 ports (2), memory card reader, headphone/microphone jack, Optical drive (select models)
4. Fingerprint reader
5. Spill-resistant keyboard
6. Point stick
7. Touchpad
8. Security cable slot, USB 2.0 port, DisplayPort, Thunderbolt port, USB 3.0 charging port, Smart card reader, ExpressCard port

- 2 Thunderbolt is new technology. Install all the latest drivers for your Thunderbolt device before connecting to the Thunderbolt port. Thunderbolt cable and Thunderbolt device (sold separately) must be compatible with Windows. To determine whether your device is Thunderbolt Certified for Windows, see thunderbolttechnology.net/products.
- 3 Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements. Dual Channel is only supported when the system is configured with DDR2 symmetric memory (i.e. 2x256).
- 4 Sold as an optional or add on feature.
- 5 Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
- 6 HP Performance Advisor requires Windows and an internet connection.
- 7 This system is preinstalled with Windows® 7 Pro software and also comes with a license and media for Windows 8 Pro software. You may only use one version of the Windows software at a time. Switching between versions will require you to uninstall one version and install the other version.
- 8 Not all features are available in all editions of Windows 8. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows 8 functionality. See microsoft.com.
- 9 For hard drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 16 GB (for Windows 7) of system and up to 30 GB (for Windows 8) disk is reserved for system recovery software.
- 10 HD content required to view HD images.
- 11 Wireless access point and internet service required. Availability of public wireless access points is limited.
- 12 The specifications for the 802.11ac WLAN are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the notebook to communicate with other 802.11ac WLAN devices. Connection speeds will vary due to location, environment, network conditions, and other factors.
- 13 4G LTE not available on all products, in all regions and only available on products featuring Intel processors. WWAN is an optional feature sold separately or as an add on feature. WWAN connection requires wireless data service contract, network support, and is not available in all areas. Contact service provider to determine the coverage area and availability. Connection speeds will vary due to location, environment, network conditions, and other factors.
- 14 MSE requires Windows 7 and internet access for updates
- 15 Battery life will vary depending on the product model, configuration, loaded applications, features, use, wireless functionality and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See MobileMark07 battery benchmark bapco.com/products/mobilemark2007 for additional details.
- 16 This product is low halogen except for power cords, cables and peripherals, as well as the following customer-configurable internal components: 3 ½" SAS HDDs, LSI 9260-Bi SAS 6Gb/s ROC RAID Card, Creative Recon3D PCIe Audio Card, Liquid Cooling Solution and Broadcom 5761 Gigabit PCIe NIC are not Low Halogen. Service parts obtained after purchase may not be Low Halogen.
- 17 Not all features are available in all editions of Windows 8. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows 8 functionality. See microsoft.com for details.
- 18 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See intel.com/info/em64t for more information. Quad Core is designed to improve performance of multithreaded software products and hardware-aware multitasking operating systems and may require appropriate operating system software for full benefit. Not all customers or software applications will necessarily benefit from use of this technology. Intel's numbering is not a measurement of higher performance.
- 19 This system may require upgraded and/or separately purchased hardware to take full advantage of Windows 7 functionality. Not all features are available in all editions of Windows 7. See microsoft.com/windows/windows-7/ for details.
- 20 NVIDIA Optimus is enabled by default. If you choose to disable this functionality, Intel® integrated graphics will not be used.
- 21 HP Client Security requires Windows.
- 22 The Wireless Hotspot application requires an active internet connection and separately purchased data plan. While HP Wireless Hotspot is active, on-device applications will continue to work and will use the same data plan as the wireless hotspot. Wireless Hotspot data usage may incur additional charges. Check with your provider for plan details. Requires Windows 8.
- 23 GPS access requires an unobstructed path to multiple satellites. Performance may be affected if/when used inside of buildings, bridges or heavily congested metropolitan areas. Requires separately purchased GPS navigation software available from multiple GPS applications.
- 24 Intel AT security requires a separately purchased Absolute Computrace service subscription and must be activated and configured. Check with Absolute for availability in your country. Intel and HP assume no liability for lost or stolen data and/or systems or any other damages resulting therefrom. See intel.com/technology/anti-theft/
- 25 Computrace agent is shipped turned off, and must be activated by customers when they purchase a subscription. Subscriptions can be purchased for terms ranging from one to multiple years. Service is limited, check with Absolute for availability outside the U.S.
