# 13.4" ROG FLOW X13

## World's Most Powerful 13-inch Convertible Gaming Laptop

### Flex Your Power

Go small without sacrificing power. Even with an ultralight, compact chassis, the ROG Flow X13 speeds through tasks with cutting-edge processors up to a Ryzen™ 9 5980HS in the Supernova Edition. A discrete GeForce® GTX GPU makes everyday play smooth and silky. Move more freely than ever and create, stream, and game wherever the mood strikes.

Up to AMD **Ryzen™ 9 5980HS** CPU

The Latest **GeForce® GTX 1650** GPU

Up to **32GB 4266MHz** LPDDR4X Memory

### Expand Your View

The Flow X13's versatility extends to a choice of displays that tailor the experience for serious gaming or creativity. Go 4K and immerse in Ultra HD detail, or go 120Hz FHD for super-smooth gaming. Both edge-to-edge displays boast a taller aspect ratio with more space for toolbars and tabs. Touch and stylus support balance the visual experience with more intuitive input for entertainment and artistry.

### Light and Long-lasting

Go farther with the energy-efficient ROG Flow. With up to 10 hrs\* of video playback, you can stay entertained and tackle to-dos anywhere. The included 100W Type-C charger is much smaller and lighter than standard gaming laptop adapters but still gets you up and running fast. Compatible USB-C power packs extend your time on-the-go, so you can stop searching for outlets and thrive in any off-the-wall scenario.

## Light Even Under Load

Despite delivering heavyweight gaming performance, the ROG XG Mobile is the lightest and most compact external GPU in the world. It's significantly smaller than competitors, at just 6% of the size of typical eGPUs built for desktop graphics cards. Weighing in at only 1kg, it's portable enough to pack up and plug in just about everywhere.

## Amp Up Your Play

PCIe® 3.0x8

GPU Interface

GeForce

**RTX™ 3080**

GPU

Maximize performance with our exclusive interface. Its direct PCIe® 3.0 x8 connection to the CPU dedicates 63Gb/s of bandwidth just to the graphics processor, beating Thunderbolt™ by 57.5%\*. A separate USB 3.2 Gen 2 link adds 10Gb/s for the I/O hub and prevents peripheral traffic from impeding graphics performance.

## Beat the Heat

Contact Area

**54% More**

Than Typical Heatpipe

Advanced vapor chamber cooling keeps the ROG XG Mobile's graphics strong. Our custom design increases contact area with the heatsink by 54% compared to a typical heatpipe layout, enabling faster thermal transfer and opening up more space for airflow.

## Take on Any Challenge

Maximizing performance for an ultra-slim gaming laptop with two integrated screens necessitates innovation. Our radical AAS Plus approach opens up a large 28.5mm intake behind the second screen that draws in cool air from above and reduces noise. When combined with cutting-edge upgrades like redesigned fans and liquid metal compound on the CPU, this dynamic system delivers next-level performance. Scenario Profiles let you optimize cooling and acoustics by seamlessly switching operating modes based on the task at hand.

## Go Anywhere. Do Anything.

Thin, light, and wrapped in a magnesium-aluminide chassis that's as strong as it is sleek, the Zephyrus Duo 15 SE lets you do more anywhere. Unplug to take work and entertainment on-the-go with its high-capacity 90Wh battery. Type-C charging supports recharging from compatible power packs, so you can stop scrambling for a socket when your battery gets low. For everyday activities like web browsing and streaming video, you can work off a smaller 100W adapter and travel even lighter.

## Immerse in Crystal Clear Sound

Virtual 5.1.2-channel surround sound powered by Dolby Atmos technology puts you in the center of the action. Twin tweeters fire sound directly at you, while dual Smart Amp woofers bounce sound off the table. Switch between 6 preset modes that optimize settings based on the type of game and media, or make manual modifications that fit your preferences. Two-Way AI Noise-Cancellation removes distracting background noise to make streams, chats, and recording clearer than ever.

Compete at the highest level of Windows 10 Pro gaming with the ROG Strix SCAR 15/17. Leading-edge graphics up to a GeForce RTX 3080™ GPU enables ultrafast and fluid gameplay. A powerful AMD CPU up to Ryzen™ 9 5900HX runs on up to 50W of sustained power when the GPU is active and 80W on its own, and is paired with up to 64GB of DDR4-3200 RAM to slice through heavy workloads. Two M.2 NVMe SSDs running in RAID 0 accelerate load times and nearly double the throughput of a single drive. All-new designs elevate both form and function in the new Strix SCAR series, introducing a bold style inspired by athletic gear. The aesthetic includes translucent materials and lighting upgrades that enable extensive personalization. Add a pop of personality to your chassis, two additional color options of Customizable Armor Caps come in the box and swap out effortlessly, letting you switch up your style anytime.

## Optical Switches Enhance Precision

Our optical mechanical keyboard switches actuate nearly instantaneously and much faster than standard alternatives, enabling more responsive input, superior accuracy, and extreme durability. A longer travel distance adds comfort, while curved caps keep your fingers centered. Per-key Aura Sync illumination lets you highlight key commands for different games, and offers a fun way to light up your world.

### KEY FEATURES

#### • UNSTOPPABLE NEXT-GEN POWER

The latest AMD Ryzen™ 9 5900HX Overclocked CPU and GeForce RTX™ 3080 GPU are fast, powerful, and quiet (under 45dB in Turbo Mode) thanks to innovative cooling such as liquid metal on the CPU.

#### • PRO-LEVEL PRECISION

Gameplay is ultra-smooth on FHD 300Hz gaming panels with 85% screen-to-body ratios. Optical mechanical keyboard enhances input accuracy with superior tactile response.

#### • DEEP AUDIO IMMERSION

Quad speakers powered by Dolby Atmos tech offer rich, studio-quality surround sound, while Two-Way AI Noise-Cancellation ensures crystal clear voice chat.

### Precision Speed

Choose between high-refresh displays to customize your gaming experience. Go for esports excellence with up to a 300Hz/3ms gaming panel that offers tournament-level speed. Marvel at detail-rich visuals with a 165Hz WQHD display that deftly balances refresh rate and resolution. Both panels deepen immersion with Adaptive-Sync technology that eliminates screen tearing and minimizes stuttering. Super-narrow bezels frame your view, minimizing distractions to keep you locked in the scene.

### Cutting-edge cooling boosts performance

Keep a low profile with quieter, more effective cooling. Liquid metal thermal compound pulls more heat away from the CPU. Arc Flow fans spin 84 blades each with a new design that pushes more air with less turbulence. Air flows through up to 4 heatsinks and fan outlets to rapidly expel heat. These and other improvements allow ROG Boost to overclock the GPU in Turbo mode, and they open up extra thermal headroom to pursue even higher GPU clocks and as well as to overclock the CPU.

### POWER UP FOR GAMING AND MORE

Smooth, clear graphics are crucial in esports, where reaction times make or break plays. Up to an NVIDIA® GeForce RTX 2070 SUPER™ pumps out reliably high frame rates for fast and fluid play, while up to a potent AMD® Ryzen™ 7 3800X 8-core CPU gives you enough power to handle creative work like streaming and video editing too. Armed with up to 32GB DDR4-3200MHz memory, you can easily game, stream, browse, and chat without missing a beat.

### BREATH FROM EVERY SIDE

Comprehensive cooling enables higher sustained clock speeds for superior performance while gaming and multitasking. Widened vents on all sides of the chassis direct airflow through the multi-zone chassis that keeps the CPU and graphics card in separate bays to minimize thermal interference and lower ambient temperatures. Better breathing means you can maintain high levels of play through marathon gaming sessions.

### GAME ON THE GO

Tailored cooling solutions and a focus on thermal design elevate the performance of the GA15. Its aerodynamic chassis has widened vents that stealthily direct more cool air through the machine. Travel to esports competitions and LANs with a built-in carrying handle for easy portability. Special, EMI-shielded glass lets you look inside the chassis to watch the powerful components at work.

### KEY FEATURES

- READY FOR BATTLE**  
 Fast-paced esports games and gorgeous AAA titles run smoothly with the reliably high frame rates pumped out by up to an NVIDIA® GeForce® RTX 2060 SUPER™ graphics card.
- POWER UP FOR GAMING AND MORE**  
 Up to an AMD® Ryzen™ R7-3800X CPU with 8 cores accelerates everyday gaming, multitasking, and multimedia work.
- BREATH FROM EVERY SIDE**  
 Widened vents around the top, front, and bottom of the case improve airflow into the chassis, elevating internal cooling to maximize system performance.

- GAME ON THE GO**  
 A lightweight and compact chassis design with a built-in carrying handle makes your desktop more portable for tournaments and LAN parties.
- AURA SYNC SHINES BRIGHT**  
 A glass side panel shows off Aura Sync chassis lighting that can be coordinated with compatible peripherals to create a cohesive system glow.

### TESTED FOR QUALITY AND PROVEN FOR RELIABILITY

Each ROG GL10CS is subjected to a series of rigorous quality tests, including drop, vibration, thermal, noise, and voltage testing to ensure it meets our exacting standards, and surpasses those of the competition. From the internal structure to the individual components and from mechanical design to electrical safety are tested to make sure the device you receive serves you reliably for years to come. The user comfort tests such as noise tests are carried out to isolate and optimize sound pressure and tones in different performance modes and scenarios to provide you with a comfortable experience even in the most demanding applications.

### UNIFIED SYSTEM TUNING AND PERSONALIZATION

ROG Armoury Crate puts all essential system and lighting control at your fingertips in a single utility. You can easily change settings for both and define up to four game profiles that automatically make adjustments when you launch your favorite titles. These options are just the beginning for what will become an even more versatile tool.

### DUAL-CHAMBER S-SHAPE DESIGN

The chassis adopts a dual-chamber S-Shape design meaning that the main components, including the CPU, the motherboard, and the graphics card are isolated from where the HDD and power supply unit are stored so that the internal thermal channels will not warm up one another resulting in improved thermal performance.

### KEY FEATURES

- MORE BANG FOR YOUR BUCK**  
 Powered by up to a 9th Gen Intel® Core™ i7 CPU with GeForce® GTX 16 series graphics and ultrafast Intel® Gigabit Wi-Fi.
